

Join us... be part of the legislative voice for Professional Engineers in Texas!

Just getting started?

Whether you are newly licensed or a recent graduate, TSPE is a great organization for you! As you explore your career path, TSPE will mentor your personal and professional development, helping you gain the skills for success through benefits such as:

- Networking
- Leadership Training
- Conferences
- Volunteer Opportunities

Excel as an Engineer

With TSPE, you have the ability to enhance your personal development through these opportunities:

- **Protect:** Participate in the legislative aspect of TSPE
- **Grow:** Get involved with education programs to encourage future engineers
- **Lead:** Benefit from leadership training and opportunities

What can TSPE do for you?

Government Relations

- Promotes legislation at the state level that serves the best interest of all Professional Engineers
- Supports candidates who share our views on issues affecting our practice
- Establishes TSPE as a resource of engineering experts
- Maintains a strong relationship with the Texas Board of Professional Engineers

Leadership & Networking opportunities

- Two days of professional development hours (PDH) to meet the requirements of your license at the Annual Meeting
- Resources such as online courses, webinars, speaker panels and other educational programs
- Volunteer opportunities
- P.E. Leadership Institute- an elite program to enhance and refine leadership skills

Additional Benefits

- 15 free PDHs through online seminars
- Free access to NSPE's Engineering Income and Salary Survey
- Manuals and publications at discounted rates
- Ethics training

What other organization protects your license?

The Texas Society of Professional Engineers is one of the largest state engineering societies in the country. By joining TSPE you also receive membership in your local chapter and the National Society of Professional Engineers (NSPE).

About us:

The mission of TSPE is to protect the public health, safety and welfare by promoting the ethical, competent, and licensed practice of engineering; to enhance the professional, social, and economic well being of engineers and the engineering profession.

We support the interests of our members through political and legislative involvement, leadership training, professional development, and participation in efforts to raise awareness of the impact of engineering to the public.
